Nna Umiang, Mberiebe Obio, Uyo, Nigeria

+2347040778673

Backend Developer(Node.js)

- I built a dynamic quiz REST API with authentication and integrated payment gateway. I also designed the relational DB with Sequelize as an ORM and utilized Redis for caching. I also dockerized it for efficient deployment on VPS.
- Built real-time messaging with Nest.js, and WebSockets. Enabled instant communication, managed concurrent connections, and implemented message broadcasting and private chats.

SKILLS & INTERESTS

Interests: Football, Chess Listening to music, Reading, and having great conversations.

Skills: Data Architect, Relational Database Design, Backend Development..

EMPLOYMENT & EXPERIENCE

Codekargo(Intershi)

Uyo, Nigeria

Backend Developer/Data Architect

2019 — 2022

- I built a dynamic quiz REST API with authentication and integrated payment gateway. I also designed the relational DB with Sequelize as an ORM and utilized Redis for caching. I also dockerized it for efficient deployment on VPS.
- I developed task app backend using Nest.js. Designed relational DB schema, enabled CRUD ops, user auth, and project collaboration. Enforced role-based access control.
